

## NeoStir HP320-Hot plate magnetic stirrer

#Cat: NB-12-4030B1

Size: 1unit

#Cat: NB-12-4030B2

Size: 1unit

#Cat: NB-12-4030B3

Size: 1unit

### NeoStir HP320-Hot plate magnetic stirrer

1. Single instrument with 3 optional different setup plates
2. Max stirring capacity of 10 liters
3. Heater temperature setting from ambient to 320°C with safe temperature setting upto 345°C
4. Safe temperature circuit for accurate temperature during operation
5. Variable speed setting from 200 to 2200 RPM in steps of 10 RPM
6. Long timer range from 1 to 999 mins & infinite mode
7. Comes with PT-1000 probe to accurately measure temperature of medium
8. Set-up plate dimensions: 140mm
9. Weight & Dimensions: 2,2k 156 x 248 x 104mm
10. Protection class: IP 21

	Servo DC Motor For Enhanced Performance		
		Variable Speed From 200-2200 RPM	
	Microprocessor Controlled		
		Large & Clear Display	
	Variable Temperature Setting From Ambient To 320° C		
		Variable Timer Setting From 1 Min To Infinite	
	10 L Of Volume		
		Separate Display For RPM / Time & Temp	
	Option Of Selecting Either °C Or °F As Temperature Units		
		Temp. Accuracy Of +/- 1°C	
	Power Intermittent Mode-auto Restart After Power Resumes For The Left Operational Time		
		Safe Temperature Setting Up To 345° C	
	PT-1000 Temperature Probe		
		Small Footprint
