

Universal Full Growth Media

#Cat: NB-26-01762 Size: 500 ml

General Information

Universal Full Growth media are tested for sterility in order to confirm no bacteria, yeast or fungi contaminate the solutions. The products undergo further quality control for correct pH, osmolality and lack of endotoxins.

A panel of different bioassays affirm the media sustain a proper environment for expected cell-type-specific culture, growth, plating, karyotype, physiology, morphology, viability, population doublings, surface markers, cryopreservation, differentiation and/or induction.

Storage	Room Temperature
Glucose	Low Glucose
HEPES Buffer	HEPES
Product Format	Liquid
Glutamine	L-Glutamine
Phenol Red Indicator	Phenol Red
