

## ▶ ABOUT OUR COMPANY

Abeomics Inc. is founded by scientists for the scientists. Our immunologists, cell biologists and business professionals have contributed for over 25 years to the growth and success of global companies including BD Biosciences, eBioscience and IMGENEX Corporation. We bring our experiences to develop well-validated and specific antibodies by traditional hybridoma technology and by genetic engineering to produce recombinant mouse and rabbit monoclonal antibodies.

Our **areas of focus** are in research & development support, high throughput screening services, assay development, as well as small to large-scale manufacturing.

## ▶ OUR PRODUCTS

- Antibodies
- Immune-Check Point Reagents
- Recombinant Antibodies
- Reporter & Stable Cell Lines
- Recombinant Proteins
- ELISA Kits & Reagents
- Biosimilars
- Ligands & Inhibitors

## DRUG DISCOVERY SERVICES

Our technical expertise in development of products for studying cell signaling and molecular mechanisms has allowed us to deliver results for many institutes in need of assay development and evaluation of compounds by a variety of protocols - Western Blotting, Flow Cytometry, and Immunohistochemistry.

**Drug discovery** and development requires in-depth knowledge in targeted areas of biology, and experience in utilization of specific experimental platforms. Consider Abeomics as an extension of your team.

### Compound Screening:

We specialize in relevant methodologies including SEAP and Luciferase assays to identify active compounds that modulate a particular biomolecular pathway, such as Th17, NF- $\kappa$ B, T regulatory pathways, etc.

### Assay Development:

Speak with us about your needs to develop and optimize dedicated cell-based and immunologic assay for your discovery programs.

## HOW WE ARE DIFFERENT

At Abeomics, we realize you have many options for your out-of-lab research support. Our difference is simple- we treat your research as if it were our own. We listen to you, and we will tell you what we can (and what we cannot) do for you to your 100% satisfaction. Consider Abeomics for our cost-effective alternative to other providers.

### Better Assay, Better Services!

Abeomics provides superb services for early stages of new drug development process including hit identification, hit to lead development, and lead optimization.

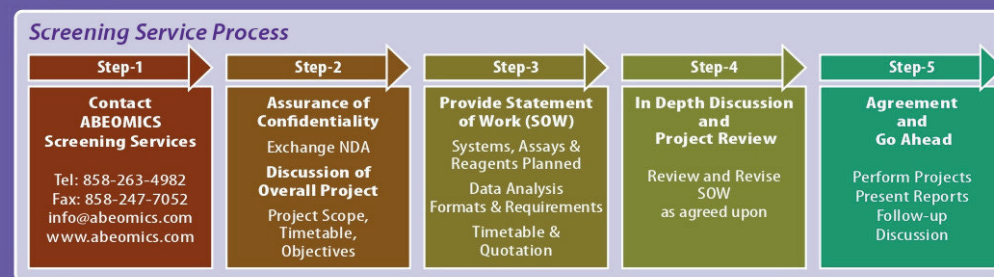

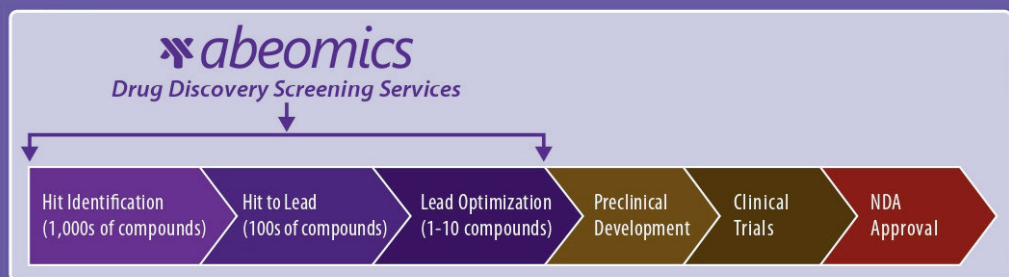

### Low Minimum Order Requirements:

Allow us to assist in your small scale and proof-of-concept experiments without a lot of out of pocket expense.

### Cost Flexibility:

We recognize the need for maximizing your research budget and can offer your lab the services you need at the price you want. Talk with us about our New Business pricing for starting your new venture and project with us.
